Re: Letter of Reference – Nanaimo Minute Men

In December of 2012, Nanaimo Minute Men moving was contracted to assist the City in moving staff from one facility to another. This involved a number of different phases. The first involved moving staff and associated equipment from the City Hall Annex facility into the new Service and Resource Centre. This move entailed moving approximately 200 people. The next phase of the move involved relocating staff from the old City Hall into the Annex facility. These staff then had to be moved from the Annex back to the old City Hall once renovations were complete.

Nanaimo Minute Men staff met with City personnel on a daily basis to confirm moves, locations and special instructions. I found Nanaimo Minute Men to be approachable and amiable to any adjustments or changes we made during the moves.

I would not hesitate in recommending Nanaimo Minute Men to anyone who is looking at moving.

Sincerely,

Mark Demecha,
Manager of Civic Facilities
